

## ABOUT FOSUN INDUSTRIES

Fosun is a global conglomerate based in Shanghai, China, with a diversified portfolio of businesses spanning healthcare, insurance, real estate, and other sectors. Some of the notable brands are global Businesses like Woford, Clubmed and Avanc Pharmaceutical. The company itself was founded in 1992 by a group of entrepreneurs with a vision to build a world-class enterprise that would create value for all stakeholders. Today, Fosun is recognized as one of China's most dynamic and innovative companies, with a strong track record of growth and expansion both within China and abroad.

At the heart of Fosun's success is its commitment to innovation, entrepreneurship, and responsible business practices. The company's core values include integrity, innovation, pragmatism, and excellence, which guide all of its business activities. Fosun is also deeply committed to social responsibility, with a focus on promoting sustainable development, protecting the environment, and giving back to the communities in which it operates. Overall, Fosun's history and values reflect a company that is dedicated to creating long-term value for all stakeholders, and that is committed to building a more sustainable and prosperous future for all.

Fosun has a significant global presence, with industrial operations located in almost 20 countries and regions spread across five continents. Additionally, nearly 40% of the company's total revenue is generated from overseas business. To further strengthen its global innovation capabilities, the company has established a "Shanghai-Silicon Valley" global innovation headquarters and integrated pharmaceutical research and development (R&D) systems in China, the United States and India. The company also boasts a diverse talent pool, with almost 40% of its 76,000 employees coming from overseas. Moreover, among the approximately 110 Fosun Global Partners, the Fosun has more than 10 overseas partners.
